

TEACHER WEBINAR

NEW: INTEGRATING PRACTICAL RESEARCH INTO THE A LEVEL PSYCHOLOGY CLASSROOM TO RAISE STUDENT ATTAINMENT

FOCUS

This webinar will leave you with greater confidence and resources to teach Research Methods and how to incorporate it into your course of study. This webinar gives you practical ideas about how to integrate teaching research methods using practicals that will fit into even the tightest teaching schedule. It is suitable for teachers who are new to teaching psychology or those who are more experienced but looking for new ideas on how to teach research methods.

PROGRAMME

Welcome and Introduction

TIME

4.00 - 4.05pm

Stroop

4.05 - 4.35pm

- Using the Stroop test to teach repeated measures design
- How to teach the Sign test
- Ways to stretch and challenge students

Memory

4.35 - 4.45pm

- Using a memory experiment to teach descriptive statistics (fits with the cognitive approach)
- Discover how to use the experiment to help students think creatively about how to improve the research design and procedure
- Ideas for homework tasks and stretch and challenge

EQ and IQ

4.45 - 5.10pm

- Have access to real life student data to use with your own students
- Understand how to integrate and teach standard deviation with examples and teacher pack
- Understand how to teach correlation using the data.

Final discussions

5.10 - 5.15pm

DATE

Tuesday 23 February 2021

Monday 26 April 2021

Wednesday 23 June 2021

WEBINAR LEADER

Helen J. Kitching is an experienced Psychology A level and GCSE teacher. She is a Chartered Psychologist and Associate Fellow of the British Psychological Society, as well as being Chair of both the Division of Academics, Researchers and Teachers and the Standing Committee for Pre-tertiary Education of the BPS. She is an author of psychology textbooks and regularly provides CPD and mentoring for Psychology Teachers.

FOCUS POINTS

- Learning how to get students engaged in learning by using 'hands on' practicals.
- Understand how practical research help students be able to contextualise questions in the exams more effectively (one of the key areas where students struggle in exams)
- Receive ready-made mini practicals that will integrate learning statistics and understand how to use these and adapt them for your own teaching
- How to help students discover issues with different types of research methods and how to overcome them

WHY SHOULD YOU BOOK A TEACHER WEBINAR?

- ✓ **Get focused feedback** on the most important areas for improvement for 2021
- ✓ **Take away new approaches** to tackling specific challenging topics that take a different angle
- ✓ **Gain new techniques** for enhancing the performance of specific groups of students
- ✓ **Led by current examiners and academic experts**, giving the best possible advice
- ✓ **Interact and ask questions directly** to the examiner expert leading the webinar
