NEW PROGRAMMES FOR 2021

DATE

London
Tuesday 24 March 2021

“ *Engaging conference by enthusiastic speakers. Great materials to use in the future and excellent exam prep for students.* ”

Blessed Thomas Holford
Catholic College

BOOST BIOLOGY GRADES

With this comprehensive AQA exam focussed revision conference

ABOUT THIS CONFERENCE

Accelerate student revision with this pre-Easter conference focussing on how to succeed in the most challenging aspects of each paper, exactly what examiners are looking for in student responses and how to get top marks in the exam. Designed specifically for the AQA syllabus, to ensure exam technique is laser focussed.

- Ask questions direct to examiners
- Gain top level advice and guidance on how to access the higher grades in examinations
- Enhance your understanding of key areas of Biology, all linked directly to the exam papers
- Take away a full set of conference notes, with examination tips and example answers

KEYNOTE SPEAKERS

Dr Harjit K Singh has over 23 years teaching experience, a wealth of examining experience and has presented many CPD courses for teachers and students.

Debbie Nsefik has worked in education for over 18 years. She progressed to Head of Department of a large Inner-City comprehensive school in London and has consistently produced results considerably above the national average in the subjects she teaches. Debbie is also a senior exam board assessor.

This conference is venue based, rest assured, should circumstances dictate we will move the conference online.

PROGRAMME

Welcome and Introductions

10.25 – 10.30am

Paper 1: tackling the tough questions in the Biological molecule topic

10.30 – 11.10am

- Gain an excellent understanding of how to answer the challenging topics on enzymes/antibodies.
- A Focus on common mistakes that students make in the examinations and how to avoid them.
- Importance of correct terminology.
- Students will be taken through a range of data handling and synoptic questions with explanations of how to achieve full marks
- Review examples of how to tackle questions on the required practicals
- Opportunities for students to ask questions and receive feedback
- Receive a set of further questions to practice on in the lead up to the exams.

Paper 1: Cell Recognition and Genetic information

11.10 – 11.50am

- The talk will cover cell recognition and the immune system, structure of eukaryotic cells and methods of studying cells, improving student understanding of these areas
- The session will look at previous exam questions and how to gain top marks
- Key exam strategies, command words and emphasis on where students most frequently fail to gain full marks

Break – submit your questions for our experts

11.50 – 12.00pm

Making the right links: how to succeed in Synoptic Questions

12.00 – 12.40pm

- Explore what examiners are looking for in the synoptic questions: applying knowledge, analysing and evaluating well
- Examine example questions in small groups to highlight the synoptic element being tested
- Marking exercise: how students can show examiners their full level of knowledge and understanding
- Student strengths and weaknesses: boosting grades (please add more detail in here)
- Examine examples of responses at different; discuss their strengths and weaknesses in groups and with the examiners

Lunch

12.40 – 1.20pm

Paper 2: Energy transfer

1.20 – 2.10pm

- What do you need to know to tackle questions on respiration and photosynthesis.
- Practice a range of question styles on respiration and photosynthesis.
- A Focus on common mistakes that students make in the examinations and how to avoid them.
- Importance of correct terminology.
- Students will be taken through a range of data handling and synoptic questions with explanations of how to achieve full marks
- Opportunities for students to ask questions and receive feedback

How to tackle the Maths in Genetics and Gene Expression with confidence

2.10 – 2.50pm

- With example answers, our expert examiner demonstrates how to always succeed on maths questions – please add in details
- Answer example questions and get direct advice on how to get high marks on these

Paper 3: Answering questions on practical assessments

2.50 – 3.25pm

- Expert guidance on how to utilise the skills learnt in the practical endorsements when answering exam questions, with example answers.
- Tackle a range of sample questions.
- How to apply your knowledge of the practical procedures when answering questions on the science behind the practical work.

Final top tips and close

3.25pm

- What students can do after today to improve their exam results.
- Revision strategies and other resources

Bring the student revision experience in school, by booking a fully tailored version of this course or any other, for your students.

Our team are ready to work with you to create an outstanding day of revision and examiner advice, to ensure your students get the best results possible.
