

Student Revision Conference

GCSE Mathematics: Securing Grades 4-5

CODE 8858

NEW PROGRAMMES FOR 2022

MAXIMISE MATHS GRADES

With this comprehensive exam focussed revision conference

ABOUT THIS IN-SCHOOL

This focus of this in-school is to support students in securing Grades 4 and 5 in their GCSE Mathematics examination. Students will develop the skills required for problem solving approaches; enabling them to access problems; have the skills to meet the challenges of answering Grade 4 and 5 questions and be able to present their solutions to examiners clearly.

This course is designed for delivery in school and can be booked for a suitable date for your school, as such the timings are only a guideline and can be modified to fit your school day. The course leader will liaise in advance with the subject lead to ensure the content of the workshops matches up with experiences and strategies already employed in school.

- A fast-paced day to keep students engaged and motivated: take away the most crucial strategies for exam success
- Develop high quality examination technique, understanding and confidence
- Gain first-hand guidance and advice from a subject expert, unpicking and addressing how to ensure students achieve at least their target grades
- Have the opportunity to ask questions directly to the subject expert
- Take away conference notes with revision guidance that really works
- Can be tailored into a split day with a grade 7-9 workshop

Keynote

educational
